Introduction

ONN is the independent nonprofit network for the 58,000 nonprofits and charities in Ontario, focused on policy, advocacy and services to strengthen the sector as a key pillar of our society and economy. We work to create a public policy environment that allows nonprofits to thrive. We engage our network of diverse nonprofit organizations to work together on issues affecting the sector and channel the voices of our network to government, funders, and other stakeholders.

Vision:

- We envision that communities are thriving because people are connected, well-resourced and affecting change for the public good.

Mission:

- ONN's mission is to connect, strengthen and advocate with and for the nonprofit sector in Ontario.

Values:

- **Reciprocity:** All our work is based on relationships. We invest our resources, our time and our energy in building mutually beneficial relationships with our people, our network, partners and stakeholders.
- **Collective action:** We are stronger when we work together. We share as much as we can. We convene and elevate the voices of our network.
